

SWIFT

April 27 - May 1, 2020 (tentative date)

Trip Overview

SWIFT participants enjoy learning about the geology, flora and fauna of the high desert and mountainous areas of New Mexico. The SWIFT experience allows students to gain independence and confidence as they face physical and social challenges beyond those normally found in the classroom or at home. This trip is a great opportunity for students to try new things, expand their friendship circles, learn about unique cultures and practice independence.

Students will camp and enjoy breakfast and dinner at Ghost Ranch (<https://www.ghost ranch.org/>), a World Heritage Site frequently portrayed in Georgia O'Keefe's artwork. Ghost Ranch is situated in a scenic location perfectly suited for daily excursions through New Mexico.

Payment, travel and sleep accommodations will be arranged through Grand Classroom (<http://grandclassroom.com/>).
